

AI-enabled systems that connect people, data, enterprise platforms, and distributed infrastructure - from the enterprise to the edge and space.

Adept Engineering Solutions delivers secure, intelligent, mission-critical systems for government and commercial organizations. We combine deep enterprise integration experience with proprietary AI platforms, cloud modernization, cybersecurity, workflow orchestration, and mission engineering to help clients understand, move, protect, and act on operational data.

CORE CAPABILITIES

INTELLIGENCE
AI & Decision Intelligence

Generative AI, intelligent engagement, document and transaction understanding, predictive insights, workflow automation

INTEGRATION
Secure Data Exchange

EDI/B2B, APIs, MFT, IBM Sterling, SAP, XML/JSON, partner onboarding, enterprise application integration

MISSION
Mission & Distributed Systems

C2 integration, cloud-to-edge-to-space workflows, mission orchestration, status tracking, resilient data movement

DATA
Data Management

EDI, MFT, Clearing House, and Data Integration — four AI-enhanced solutions for secure data exchange.

EXPANDED ENGINEERING CAPABILITIES

- **Cloud and Modernization** - AWS/OCI architectures, application modernization, performance engineering
- **Cybersecurity & Trusted Data** - Zero Trust, secure communications, provenance, chain-of-custody, auditability
- **Operational Support** - Program delivery, system operations, production support, technical staffing, CONUS/OCONUS delivery

WHY ADEPT

- **Built, not just advised** - Adept invests in proprietary AI and operational technology platforms.
- **Enterprise-to-mission depth** - Decades of experience in mission-critical integration and secure data movement.
- **Proven relationships** - 95% repeat client engagement across federal and Fortune 500 environments.
- **Specialized expertise** - IBM Sterling, EDI/B2B, SAP integration, AI, cloud, cybersecurity, and distributed systems.

ADEPT TECHNOLOGY PORTFOLIO

INTARIS
AI-guided engagement, assessment & decision support

MERCURY
Insight + ChainSight: Smart data exchange meets supply-chain visibility, end to end.

KONTRATAR
AI-assisted capture & proposal intelligence

FEDERAL CREDENTIALS

SBA Certified | SDB | Minority-Owned
UEI: XS2ZGWHQDKN1 | CAGE: 77CZ3
GSA MAS: 47QTCA23D002D

PRIMARY NAICS

- Secondary NAICS Code
- 541512 (Primary) • 541511 • 541513 • 541519 • 541611
 - 541612 • 541613 • 518210 • 513210 • 519290 • 541990
 - 561320 • 561330

MISSION SYSTEMS &
SPACE DATA
INFRASTRUCTURE

CLOUD | EDGE | SPACE

Secure orchestration
Trusted data movement
Mission visibility
Resilient operations

CLIENT EXPERIENCES

REPRESENTATIVE SOLUTIONS & USE CASES

INTARIS

AI-Guided Engagement
Secure video, voice, and text engagement for workforce screening, intake, eligibility, healthcare, compliance, and structured decision workflows.

MISSION INTEGRATION

C2 & Distributed Systems
API-driven orchestration spanning enterprise, cloud, ground, mission-control, edge, & space environments.

KONTRATAR

Capture Intelligence
Opportunity analysis, requirements extraction, compliance checking, content development, and proposal workflow support.

MODERNIZATION

Enterprise Engineering
Application Development, Cloud Migration, Data Platforms, Cybersecurity, Zero Trust, Performance, and Operational Support.

MERCURY

Mercury Insight + ChainSight
Intelligent exchange and validation of enterprise data (X12, EDIFACT, XML, APIs, SAP IDoc) paired with tamper-evident, end-to-end supply-chain visibility and anomaly detection.

SELECTED PAST PERFORMANCE

Hughes / EchoStar Network | \$3.8M
8+ years providing IT resources for critical projects.

Panterra / Interstate Batteries | \$1.69M
Multi-customer EDI operations and production support.

TSL Logistics | \$1.15M
Patented blockchain solution for downstream oil-and-gas visibility.

Johnson Controls | \$1.2M
SAP integration and global supplier data transformation and exchange.

Ryder Corporation | \$1.25M
Enterprise data-exchange operations, support, and partner onboarding.

T. Rowe Price | \$1.3M
Next-generation file management and data distribution integration.

Dana Corporation | \$1.1M
Modernized E-Business Data Exchange and AWS-based distribution.

Federal & Fortune 500 Experience
GSA, VA, IRS, Treasury, Federal Reserve, SSA, AAFES, HHS/CMS, and major commercial enterprises.
